FOREWORD

Although the average needlewoman is acquainted with several crochet edges, it is sometimes difficult to call them to mind when required. For this reason we have included some of the old, yet ever popular ones, which together with a great number of very different and fascinating new patterns make a collection invaluable to every needlewoman.

The instructions are clear and full of detail, making it possible for every edge to be carried out by those even with only the slightest knowledge of crocheting.

As no two persons crochet alike, it is sometimes necessary to add to, or decrease the number of chain used, or the number of stitches missed in a pattern. It is always advisable to try a little of the selected pattern as a sample, to ascertain whether or not any alteration is necessary.

The edgings illustrated in this publication are reproductions of the originals in natural size.

"PERI-LUSTA" Pearl Knit size 12, has been used in the work, and by reason of its world wide reputation, **"PERI-LUSTA"** carries our recommendation for any type of thread necessary for embroidery, crochet, and tatting.

We hope that our efforts, in producing this BOOK OF "MYART" CROCHET EDGINGS, have been both stimulating and informative.

This publication is obtainable at all Leading Drapers, Art Needlework Shops, and Book Stores throughout the Commonwealth of Australia, and the Dominion of New Zealand. If unable to obtain, write direct to the Publishers, giving the name of your local Storekeeper.

Instructions for Guidance in Crochet

CHAIN (ch.)—With a loop on the hook, draw thread through this loop and continue until required number of ch. are made.

DOUBLE (d.)—With a loop on the hook, put hook into work, draw thread through work (making two loops on hook), thread over hook and draw through both loops.

TREBLE (tr.)—With a loop on the hook, thread over hook, hook into work, thread over hook and draw through work (making three loops on hook), thread over hook and draw through two loops, thread over hook and draw through remaining two loops.

LONG TREBLE (L tr.)—With a loop on the hook, thread over hook twice, hook into work, thread over hook and draw through work (making four loops on hook), thread over hook and draw through two loops, thread over and draw through next two, thread over and draw through remaining two.

CLUNY GROUP—Any given number of treble or long treble are crocheted off excepting the last loop of each, which are kept on the hook and taken off together.
All cluny groups used in these patterns are as follows:— Three long treble, leaving last loop of each on hook and taking off all four together.

PICOT—Any given number of chain joined by a double into first chain crocheted.
For picots used in these patterns, crochet 4 ch. then 1d. into fourth stitch from hook.

A MESSAGE

This message is especially directed to the younger generation of Needleworkers in whom, at the commencement of their education, it is surely desirable to cultivate that inherent knowledge of quality materials and handicraft.

The phrase "*MYART* Quality Needlework" is known and respected by many thousands of Needleworkers. To those who have not yet had the pleasure of embroidering "*MYART*" Traced Linens, the following informative matter may assist.

"*MYART*" Cream and White Linens are of very superior quality.

"*MYART*" Designs are produced with a sympathetic understanding of Art in all forms of beauty.

"*MYART*" Spokestitching is clean and even, lending itself to the finest Crochet.

"*MYART*" Tracing is well defined, enabling designs to be followed with ease.

"*MYART*" Articles have colour charts attached in all standard sizes. The colour schemes are very adaptable, and the instructions prove most useful for the execution of the work.

"*MYART*" *finish* and the general appearance of all "*MYART*" articles leave nothing to be desired.

As hours of work are expended on embroidery of any description, it is surely essential that the highest quality of materials should be used to ensure the lasting value and service of such work.

Those who discriminate in their choice of Needlework have realised this all important point.

We are joined, we feel sure, by the majority of Needleworkers in saying that "*MYART*" Quality Needlework" and the superlative excellence of "PERILUSTA" Embroidery Threads are representative of the qualities necessary to justify those pleasing hours spent in embroidery.
